The Division offers two specializations leading to the Bachelor of Arts degree. The traditional NCATE/DOE approved specialization leads directly to Florida teacher certification in K-6 Elementary Education/ESOL. The other specialization is Educational Studies and it is an NCATE, but not a DOE approved program. It prepares students to work in private settings or agencies that do not require graduation from an initial certification program. Students graduating with this specialization are not eligible for certification under Florida Department of Education criteria, but may subsequently earn certification as they become eligible in one of Florida's alternative certification programs.

Students interested in certification in Elementary Education and Exceptional Student Education should review the Exceptional Student Education major in this *Catalog*.

Students are assigned to an Elementary Education Pending major until they meet with an advisor in the department and complete other requirements. Admission to the Educational Studies specialization requires specific approval by the chairperson.

PROGRAM REQUIREMENTS

In addition to general University requirements, students seeking the B.A. in Elementary Education must meet the requirements listed below.

Candidates for admission to the NCATE/DOE approved teacher education specialization must meet and complete admission requirements detailed under Admission to Teacher Education. These requirements include, but are not limited to, satisfactory completion of the General Knowledge, Professional, and Subject Area portions of the Florida Teacher Certification Examination (FTCE). Requirements for teacher education programs may change due to legislative mandates. Therefore, the actual program requirements may differ from those listed in the *Catalog*. Candidates must inquire with the Chair of the School of Education or an advisor to obtain the most current program requirements.
