University of West Florida 2009-2010 Who's Who Department Selection

Please complete as much of the information requested about each of your nominees as possible.

For **Leadership** and **Service**, please rate the student on a scale of 1 (low) to 5 (high) in terms of his or her leadership experiences and contributions to UWF or the community and any campus or public service activities. These ratings are essential since Who's Who is intended to recognize students who balance academics, leadership, and service. Given the diversity of student experiences and circumstances, a more specifically defined rubric for leadership and service is not provided. Our intent is that you use your professional and personal judgment to assess the degree to which particular students are outstanding in either category within the context of their life experiences and current commitments.

The item "**Rank this student in the top __% of students you are currently working with?**" is intended to capture your professional overall assessment of this student. Use whatever quantitative or qualitative measures you judge appropriate to determine an appropriate percentage.

Note: Our office will look up the current cumulative UWF **GPA**.

In addition to your ratings, we will ask the students to submit a questionnaire or resume documenting their activities.
