

A COGNITIVE TEST

Be honest and see how you do on the first try before looking at the solution.

Count the "F's" in the following text:

FINISHED FILES ARE THE RESULT OF YEARS OF SCIENTIFIC STUDY COMBINED WITH THE EXPERIENCE OF YEARS.

Are you done counting the "F's"?

Look at the answer below only after you have counted them.

How many are there? 3?

Wrong, there are 6 !!--no joke.

Read it again.

The explanation seems to be that the brain cannot process "OF".
Incredible or what ?

Anyone who counts all 6 "F's" on the first go is a genius.
Three is normal, four is quite rare.
