- Student Level: Graduate students
- Highlights: Kitchen and laundry located inside each house

The Department of Housing and Residence Life’s role is to advance UWF’s mission, vision and priorities by creating a living and learning environment for all of our residents. Our goal is to support all residents throughout their education and create a community of respect among our diverse student population.

When asked about what they learned about themselves as a result of living on campus this year, students said:

- “I learned that I can be independent.”
- “I’ve learned more about responsibility and how I must take charge of my life.”
- “I’ve learned there is always someone here for me. Whether it’s an RA or one of my friends.”

When asked about what they like most about living on campus, students said:

- “Interacting, connecting and networking with others.”
- “I like being in close contact to the school’s resources and students.”
- “The people! My roommates, neighbors and RA are all wonderful people and I love that I have met them.”
