Friday, April 15, 2016

Dr. Jerry Johnson
Department of Teacher Education and Educational Leadership

Utilizing Extant Data Sets from Federal and State Sources for Educational Policy Analysis

Series Calendar

Fridays in April
April 22: Professor Raid Amin, Department of Math & Statistics
Students, faculty, staff, and public are welcomed.
Light Snacks Offered.
The series will takes a summer break & resume in fall semester 2016. Let us know if you might like to present work! Contact: tmw34@students.uwf.edu

This dialogue will feature an overview of several federal and state data sources and applications for visualization and analysis. Focus is on education and educational policy; however, research designs typically call for utilizing data from government sources like the U.S. Census Bureau and Bureau of Labor Statistics.
