**Name Badge**

Copy Services (uwf.edu/copyserv)
Departmental Copier Program - UWF has a centralized cost-per-copy program with one vendor and standardized costs and features. Departments pay only for the copies, prints or scans used on a cost-per-copy basis. Copy paper is included in the cost and may be obtained through the Auxiliary Services office (Ext. 3012), as is toner, staples, service and/or maintenance for departmental copiers.

UWF employees who would like the ability to make job-related copies or print from their computer to the campus copiers will need to first be given access to the appropriate Banner index number(s). This can be accomplished by completing and submitting the Copy Service Access Request Form. Users should also associate their personal Nautilus Card with their ArgoNet credentials at a device. This is a one-time-only process to gain access to the copiers for departmental work but will also allow you to charge jobs to your personal Nautilus Card account.
