		¹ Unrestricted is defined here as having no external restrictions imposed on the use of funds. Internal restrictions may apply.
		² Use of funds is subject to externally imposed restrictions.
		³ Budget is established and allocated at the beginning of the fiscal year based on anticipated state funding (General Revenue and Lottery) and anticipated collections from students (Student Fee Trust). The university receives the funding from General Revenue in the form of bi-weekly cash payments throughout the fiscal year and from students as fee payment for the Fall, Spring, and Summer terms. Cash accumulating in these funds throughout the year is not in excess of, but rather in support of the budget that was allocated in advance of cash collections. To facilitate the accounting process, E&G expenditures are made exclusively from General Revenue throughout the year, resulting in deficit cash balances which are reimbursed from the Student Fee Trust Fund at year end. Lottery money is received sporadically during the second half of the fiscal year.
