BRIGADIER GENERAL MICHAEL FERGUSON, USA, RETIRED
Doctor of Humane Letters

Brigadier General Michael Ferguson (ret.) has enjoyed extraordinary success in a variety of industries and contexts. He achieved a distinguished career in the U.S. Army including tours in Germany, Vietnam, Korea and Japan where he served as Deputy Commanding General. He has received over 30 awards and decorations including the Purple Heart and Distinguished Service Medal. Following his career in the U.S. Army, General Ferguson continued to accumulate professional achievements as an attorney and community leader. In 1998, he was recognized by the Florida Senate as an Outstanding Citizen.

Throughout his military and professional career, General Ferguson has demonstrated the highest standards for excellent character, exemplified in the UWF values of caring, collaboration, integrity and stewardship. As a career officer in the U.S. Army, a partner of the law firm McDonald, Fleming, Moorhead, Ferguson, Green and Smith, the Civilian Aide to the Secretary of the Army for Florida, and as a sixth-generation Pensacolian dedicated to serving the Northwest Florida community, retired General Ferguson has demonstrated extraordinary achievement throughout his military and professional life and a deep abiding commitment to public service and philanthropy.

General Ferguson has proven to be a community leader with particular commitment to creating opportunities for UWF students and supporting the UWF Military Veterans Resource Center. While there are many community partners that serve UWF, few approach the levels of passion and commitment that General Ferguson demonstrates on a regular basis. He invests in this institution by supporting student success in a hands-on fashion. As a supporter and participant in a myriad of initiatives in the Military Veterans Resource Center and College of Business, General Ferguson has sought to make a direct and purposeful impact on UWF students.

ACADEMIC REGALIA

The academic costume worn today at the University of West Florida originated in the universities of the Middle Ages when a warm gown and hood were useful for scholar and cleric in unheated buildings. The distinctive gown also served to set the student apart from his fellow citizens of the community. Until the Civil War, students at most American universities wore caps and gowns daily while in residence. These varied in design until they were standardized in 1894. At that time it was decided that all robes would be black; bachelors’ gowns of silk with long closed sleeves; doctors’ gowns also carried three velvet bands around each sleeve above the elbow. Hoods, made of the same materials as the gowns, were varied in length with the degree. The lining of the hood indicated the academic discipline in which the degree was earned. In the recent years several universities have decided to return to a distinctive gown design, particularly in the color of the garment. However, there has been no change in the standard colors that represent the disciplines. At the University of West Florida each bachelor’s degree candidate or graduate wears a blue and green tassel on the cap (mortar board). The tassels of master’s and specialist’s degree candidates and graduates represent the college awarding the degree: white, arts and sciences; light brown, business; and light blue, professional studies. Doctoral degree recipients wear a gold tassel. In addition, baccalaureate graduates who have earned a 3.5 accumulative grade point average or better are entitled to wear gold honor cords on their gowns.

Academic Hood Colors
The color lining the hood indicates the following:

- Arts and Humanities, White
- Business, Drab
- Communication, Crimson
- Criminal Justice, Midnight Blue
- Education, Light Blue
- Engineering, Orange
- Law, Purple
- Library Science, Lemon
- Music, Pink
- Nursing, Apricot
- Philosophy/Political Science, Dark Blue
- Public Administration, Peacock Blue
- Public Health, Salmon Pink
- Science, Science Gold
- Social Work, Citron Yellow
Dr. Kuiyuan Li was awarded the Distinguished University Professor designation largely at the unanimous recognition of the faculty in the Mathematics and Statistics Department where Dr. Li served as chair for an impressive eight years. Dr. Li used his position wisely to promote the individual development of faculty in the department and under his leadership the department became recognized as one of the strongest math program deliverers in the State of Florida. An outstanding teacher, Dr. Li maintained a robust research agenda that often involved collaborations with other faculty in the department. His exemplary service drove the decision to confer the Distinguished University Professor status in 2010.

Dr. Al Cuzan received the recognition of earning the Distinguished University Professor status in 2012. Dr. Cuzan’s eminence in political science research was a primary consideration in this decision. His development of systems to produce accurate political forecasting has earned him a national reputation for applying political theory to practical problems. Known for his rigor and challenging assignments, Dr. Cuzan’s courses generate positive reviews from students for the life skills they teach in addition to political science content. He served as chair of the Political Science Department for over twenty years, making his tour of service one of the longest in UWF history.

Dr. Hedi Salanki-Rubardt was awarded the Distinguished University Professor title in 2012 based on her international renown as a harpsichord virtuoso and the exuberance of her teaching style. Dr. Salanki-Rubardt’s teaching techniques have transformed music majors into world class performers primarily through her strong emotional investment in the students and the music. Her quality of performance has been recognized throughout the world based on invitations to deliver teaching experiences and provide judging of high level competitions. Her creative achievements as a teacher and a performer are without parallel.

Dr. John Ortiz Smykla was nominated by his colleagues for the Distinguished University Professorship in recognition of the example he set as an internationally acknowledged scholar-teacher and for his mentoring of students and faculty throughout his 37-year career in higher education. Dr. Smykla is a former Senior Fulbright Scholar to Argentina and Uruguay and recipient of a grant from the National Science Foundation to computerize a historical dataset on capital punishment. Scholars from the Universities of Maryland, South Carolina, and Florida State call it the “best historical record on executions in the United States.” Dr. Smykla, his students, and colleagues are now evaluating reentry court, a specialized court that works with inmates who are transitioning from prison to the community, to learn if reentry court reduces offender recidivism and protects the community.

Dr. William Huth received the Distinguished University Professor award in recognition of his extensive trajectory in the area of research, and academics in general. He has made significant research contributions in different areas of economics – including subfields such as labor economics, financial economics and the economics of natural resources. His focus on research is evidenced by the continuous efforts in writing grant proposals and the high success rate in securing funds awarded by a number of government agencies and organizations such as the Florida Department of Fish and Wildlife Conservation Commission, NOAA and National Sea Grant, or the Florida Geological Survey. Dr. Huth has also served as the UWF Associate Vice Provost for Research and Graduate Studies, and as the Executive Director of the UWF Research Foundation. His achievements as a researcher are well established among the economics profession.

Dr. Athena du Pré was granted the title of Distinguished University Professor in 2014 in recognition of her reputation as a health communication scholar and her dedication to teaching. Her health communication textbook is used in hundreds of medical schools, nursing schools, business schools, and communication departments around the world. She is also author or co-author of numerous other books, including the latest edition of the all-time best selling communication text in the country. As an educator, Dr. du Pré is known for challenging students to improve the world while they learn leadership skills. In the last five years, students in her classes have raised more than $100,000 for local nonprofit organizations. Her proudest accomplishment is that the UWF student body has twice honored her with a Distinguished Teaching Award.

Dr. Raid Amin received the recognition of Distinguished University Professor largely because of his impressive research agenda, which includes students from the Department’s undergraduate and graduate programs. Dr. Amin and his students have published articles in areas of applied statistics and disease surveillance. Recently, one of these articles received recognition for its groundbreaking research on human and shark interactions and was featured in various popular media outlets. Additionally, Dr. Amin consults for local hospitals advising physicians’ and epidemiologists’ research projects. Dr. Amin is also committed to including accessible applications in the undergraduate statistics curricula, and to building robust statistics graduate courses.

ALMA MATER

Where learning’s light sends forth its beam
Through darkness of our youth,
There you, West Florida, home of dreams
Prepare the way of truth.
You guide us toward tomorrow’s shore
With knowledge of our past;
Your power in us rests secure,
And evermore will last.
Your stately mansions were our home
Where minds and hearts are free;
And though we may far from you roam,
We’ll always honor thee.
