Consider Studying Abroad

Take the Road Less Traveled to Your Degree at UWF

UWF offers a variety of study abroad opportunities including study and internship options for summer, semester or year. Programs are available for UWF or transfer credit on 6 continents. Courses available include options for general studies, elective and major course credit. Most students are able to use all of their existing financial aid as well as apply for study abroad scholarships to cover the expenses of a program abroad.

Whether you choose a faculty-led summer program in a small group, independent internship abroad, or enroll as an exchange student at one of more than 35 international partner institutions, Studying Abroad will expand your educational experience at UWF and prepare you for your future career in a 21st Century Global Society. Check out an Information Session in the Fall or Spring Semester to find out how to apply and the process for approved students.
