Content																	
Design, assess, and evaluate curriculum and instructional practices and theories for use in real-world situations.	X			X	X	X	X	X		X			X	X	X	X	
Evaluate and apply extant research on teacher education and teaching and learning-related theory and practice.	X		X	X			X			X		X			X	X	
Evaluate the applicability and utility of available assessment tools.	X									X	X	X	X	X	X	X	
Critical Thinking																	
Create curriculum and instruction frameworks or protocols for real-world situations.		X				X				X	X		X	X	X		
Utilize appropriate tools and methods to assess and evaluate educational policy and practices.		X				X	X			X		X			X	X	
Integrity/Ethics/Character																	
Apply salient professional ethics to the implementation of research and assessment.	X		X	X	X		X	X		X	X	X	X	X	X	X	
Communication																	
Communicate results from original research and assessment to varied audiences in oral and written form utilizing appropriate conventions.	X		X	X			X	X		X	X	X	X	X	X	X	
Use technology appropriately and effectively to communicate with public, peers, students, researchers, and supervisors.			X				X	X		X	X	X	X	X	X	X	
Project Management																	
Develop and implement appropriate and efficient plans for conducting research and assessment.	X		X				X			X					X	X	
Develop and implement strategies to manage educational and organizational change based upon extant literature and/or results obtained from original research or assessment/evaluation.								X		X	X	X	X	X	X	X
