

## **ECONOMICS, B.A.**

### **Mission Statement**

*The B.A. in Economics provides a comprehensive foundation for students who are interested in current economic issues and want to develop conceptual and analytical skills for making policy-oriented decisions based on analysis of fundamental resource allocation problems. It prepares those students who wish to obtain a graduate degree in economics and it is also recognized as excellent preparation for graduate programs such as Law or the MBA. The B.A. in Economics is typically of interest to students with strong academic credentials and a desire to make a difference by helping to shape policy in a wide range of areas in society. The B.A. in Economics is structured to provide the opportunity for students to earn minor degrees in many of these specialized fields.*

### **Student Learning Outcomes**

UWF Economics B.A. graduates should be able to do the following:
