Hepatitis B Titer/Results Results may take several weeks. You must wait at least one month after your 3rd immunization before the titer can be drawn. **** If the student does not convert after the second series, we will refer to and follow the Healthcare provider for recommendations.	Date of titer _____ Results _____ The student must provide UWF Nursing the lab report. Signature _____ License No./State _____ If, Required, repeat date and results Date of titer _____ Results _____ The student must provide UWF Nursing the lab report. Signature _____ License No./State _____ **** Recommendations:

Nursing students will need to provide proof of immunizations and a copy titer results.

Healthcare Providers: Please add a signature to confirm if a titer has been completed or in progress. **Per our clinical site agreements:** if the Hepatitis B titer results are “negative” or “non-immune”, the student has two options:

Option 1: If the series was completed more than 1 year ago, they can get a Hepatitis B booster, and 30 days later have a new titer drawn; if the results of the titer are positive they are complete. If the titer is negative they must repeat the entire 3 part immunization series, wait the 30 days for a new titer to be drawn.

Option 2: If the series was completed in the past year, repeat the entire 3 part immunization series, wait 30 days for a new titer to be drawn. If result is negative see a provider for Hep B infection serology.
