

Request to Use Hazardous Chemicals in Live Vertebrate Animals

Principal Investigator(s):

Protocol Title & Number:

Date:

Contact Info:

List each chemical and describe all procedures necessary for personnel and animal safety including hazardous waste, carcass disposal, and cage decontamination below:

Chemical Name:

Cas Number:

Hazard Class (check all applicable):

☐ Carcinogen ☐ Mutagen ☐ Reproductive Toxin ☐ Toxicant ☐ Irritant

☐ Nanoparticle:

Length of time chemical shed or present in bedding:

Route of Excretion (check all applicable):

☐ Respiratory ☐ Urine ☐ Feces ☐ Saliva ☐ Not Excreted

☐ Other:

Hazardous metabolites generated: ☐ No ☐ Yes

If yes, please list:

Please describe briefly how waste (carcasses, bedding) will be collected, stored, and disposed of:

Important Reminder: Approval from the IACUC and EH&S must be granted before any work utilizing the above agents in/with animals may begin. Based on risk assessment, a hazard start-up meeting between EH&S and PI may be required before initiating this work.
