Tutoring and Learning Resources

College is now your student’s full-time job, and Tutoring and Learning Resources is here to provide “on the job” training! While your student is more likely to attend tutoring after an exam or a few assignments, it is important to encourage them to build effective academic success skills early on. At Tutoring and Learning Resources, we offer Study Skills Assistance sessions, which help them to develop effective strategies for academic success, including note-taking, time management, exam prep, and goal-setting. Encourage your student to visit us early in the semester to facilitate their academic success!

Visit our website at www.uwf.edu/tlr, or have your student give us a call (850-474-3176) or stop by our office (building 52, room 151) for more information.
Career Services and Community Engagement

Career preparation begins the moment your student steps foot on campus, don't let them fall behind their peers. Encourage your student to stop by the Office of Career Development and Community Engagement to create their "Argo2Pro: Career Readiness Plan." Whether they are undeclared or know exactly what they want to do when they graduate, their unique plan will help them map out opportunities for meaningful involvement on campus and in the community that will help your student to become career ready! In addition to guiding your student in developing their unique Career Readiness plans, the Office of Career Development and Community Engagement offers a variety of other opportunities to help your students prepare for their future. They can participate in an appointment to discuss anything from Career and Major Exploration to Interview Tips, and can connect with employers through on-campus Meet and Greets or Job Fairs, such as the upcoming Part-Time Job Fair. If your student has any questions, they can contact our office at 850-474-2254, by email at career@uwf.edu.
