I. Renovations inside of the Galley in the upper level

- We have been approached by Dr. Frye and Ellen Till on flooring, HVAC, wallpaper, lighting etc. to receive funding for the costs of these projects
- The fees for the projects listed on the sheet would come out of A&S fees
- Upon discussion, we think that funding can be better spent on platform items and projects that would impact more of the daily activities of a greater portion of the student body
- We want to help with some projects to help them out, just not all
- We have an idea to help fund the wallpaper line item as the project - Wallpaper clings
  - Sen. Williams: What exactly were you thinking for the wallpaper decor? I have seen these decorations at other schools such as UCF and I stopped to look at it even though I don't even go there. I think this is a really good idea
  - COS Calvert: Perhaps we can incorporate organizations logos and names, UWF hashtags such as #ArgoPride and other main ones to increase branding, especially for younger students
  - Chair Negrón: The goal is to have some of the designs presented to the university so that students can vote on what they want to see there. We want to reach back out to Ellen Till and her associates to let her know that yes, we are willing to provide funding to an extent
  - Sen. Tran: Open up an option for student work to be featured on unexposed beams to showcase the talents of some current students
