

JOSEPH WOJCIECHOWSKI

SKILLS

Prepared lectures, exams, and assignments for classes taught. Used My Math Lab, ALEKS, and WebWorks course software. Gave live lectures to online students, setting up the online rooms as well as uploading class notes. Used e-learning, canvas, and blackboard to post assignments as well as test solutions. I have a strong background in online instruction using Blackboard Collaborate, Cisco WebEx and Zoom. I also have a working knowledge of SAS and Cisco WebEx.

OBJECTIVE

My objective is to obtain the Mathematics 9-month Position

EXPERIENCE

Curriculum Developer
University of West Florida
August 2023 – May 2024

Developed curriculum for two new courses (MGF 1130 and MGF 1131) per state mandate.

Adjunct Instructor
Northwest Florida State College
August 2017 – present

During my 4 years as an adjunct professor, I have taught as many as four courses in one semester. Courses I have taught include the following: MAT 1033A, MAC 1105, MGF 1106, and STA 2023. I have delivered these courses in traditional and hybrid formats.

Adjunct Instructor
University of West Florida
August 2017 – present

During my 4 years as an adjunct professor, I have taught as many as three courses (or up to nine sections online) in one semester. Courses I have taught include the following: MGF 1106 and MGF 1107. I have taught these courses in traditional, blended and completely online formats.

Graduate Assistant – Instructor of Record
University of West Florida Mathematics Department
| August 2016– May 2017

Taught two sections of MGF 1107 Mathematics for Liberal Arts II for both Fall and Spring semesters. One section online and one section in class.

Graduate Assistant | University of West Florida |
August 2014 – May 2016

Graded homework and exam for various instructors of undergraduate classes. Prepped Blackboard Collaborate sessions for online courses.
