## Time Management

### SOME SMART QUESTIONS TO ASK

1. ACCEPTABLE.

Am I prepared to start studying this night/day even when I won't feel like it?

2. REALISTIC:

Will I certainly have enough time here to complete my studies/ assignment

3. SPECIFIC:

- Where will I study, home, library
- How will I start and what materials do I need?

4. MEASURABLE:

- How will I know I have understood?
- Read, Test, Repeat or make notes

5. TIME BOUND:

When will I have a break?
