Course Description.

This course provides students with the applied knowledge for personnel supervision and management when implementing Applied Behavior Analysis. Students will establish clear procedures and approaches to personnel management and improved client outcomes via precise data collection. The content is based on the Behavior Analyst Certification Board (BACB) 5th edition Task List and the Qualified Applied Behavior Analysis Credentialing Board (QABA) Qualified Behavior Analyst (QBA) Competency Standards (see below under Topics Covered). This course serves as only one in a series of courses that prepares students to apply for the Board Certified Behavior Analyst (BCBA) exam or the Board Certified Associate Behavior Analyst (BCaBA) exam or the Qualified Behavior Analyst (QBA).

Course Format/Type

This course is 100% Online. Students will be required to participate in weekly online videoconference style classes. In addition, students are required to access supporting documents from the Internet including the syllabus, assignments, and assessments. Weekly attendance in either live or recorded sessions is mandatory and proctored using the online educational platform provided by the University of West Florida.

Course Learning Outcomes

1. Define each vocabulary term related to personnel supervision and management and behavior change procedures as evidenced by weekly quizzes and active student responding.
2. Identify concepts related to appropriate goals and interventions (when appropriate) related to Topics covered as evidenced by 100% fluency via weekly quizzes.
3. Select strategies based on identified concepts related to specific intervention strategies (when appropriate) under topics covered as evidenced by 100% fluency via weekly quizzes.
4. Solve programming considerations using ABA concepts identified in personnel Supervision and Management task list items.
5. Synthesize required readings with independently located research papers to defend and evaluate performance monitoring, feedback, and reinforcement systems under Topics Covered, relating to real-life scenarios and examples as evidenced by at least 82% score on discussion post rubrics.
6. Maintain concepts under Topics Covered via cumulative assessments throughout the course sequence and final exams.

Grading System

Points will be allocated using the following weighted system

1. Participation in weekly assignments (10% of final grade)
2. Quizzes (20% of final grade)
3. Exams (25% of final grade)
4. Discussion Posts (20% of final grade)
5. Final Project (25% of final grade)

Exams

All exams are cumulative and are available on the UWF eLearning system. Computers must be able to take the exam using a lock-down browser and monitor.

Assignments

Content hours earned towards BACB requirements and QABA requirements have been carefully calculated. If a student neither attends the live virtual class nor views the recorded lectures for each week, a 10% response cost to the final grade will be administered for each missed session or recording. If 3 or more class sessions are missed, this will result in an automatic (F) failing grade assigned for the course. Students must also complete weekly assignments to receive a passing grade in the course. Assignments submitted beyond one week from the due date will not receive points, but assignments still must be placed in eLearning by the end of the course in order to earn a passing grade. If any assignments are not submitted to eLearning by the end of course, a 10% response cost to the final grade per missing assignment will be administered. If 3 or more assignments are missed, this will result in an automatic (F) failing grade assigned for the course.

Virtual Class

Our students have choices in attendance and participation: Students are encouraged to attend all live, real-time, class sessions. If students cannot attend live, they must watch the recording each week, in addition to any other pre-recorded lectures.

Grading scale

A	92-100
