Associate Planner Intern

Leonardo DRS is Hiring!

Associate Planner Intern

Spring 2027: 20 hours/week

The Leonardo DRS Airborne and Intelligence Systems business is seeking a motivated Associate Planner Intern to support our planning and materials team for Spring 2027.

This part-time internship is designed to work around the student's class schedule and offers hands-on experience in supply chain planning within a global defense and intelligence technology organization.

In this role, the intern will gain practical exposure to production planning, material supply analysis, and cross-functional coordination between planning, project accounting, and project management teams.

This is an excellent opportunity for a current student pursuing a degree in Supply Chain Management, Business Administration, or an MBA to apply classroom knowledge to real-world projects while building professional skills in a collaborative, mission-driven environment — all while maintaining a schedule that accommodates coursework.

Associate Planner Intern Job Description

About Leonardo DRS

The Leonardo DRS Airborne and Intelligence Systems business is a global leader and strategic partner committed to delivering world-class, full life-cycle defense and intelligence products that protect the security of our nation and our allies. We provide air combat training and state-of-the-art electronic warfare systems, deployed by virtually all U.S. military and government agencies worldwide.

Responsibilities:

- Drive consistent communication between planning, project accounting, and project management for consistent project material and depot repair unit support.
- Perform material supply analysis, monitor, and recommend schedule improvements.
- Consolidate demand for purchase requisitions.
- Create purchase requisitions based on the Master Production Schedule.
- Create reports for distribution to program office, customer visits, and management.
- Monitor production status and manufacturing order completion dates for recommendations or adjustments.
- Support floor part requests, cycle and physical inventory counts, KANBAN material, and shelf-life monitoring.
- Support, communicate, and defend the mission, values, and culture of the company

Qualifications:

- Enrolled as a Junior or Senior in a 4-year bachelor's program in Supply Chain Management, Business Administration, or currently in an MBA program, with at least a 3.0 GPA.
- Part-time schedule with flexibility to accommodate class hours.
- Must be flexible and willing to move between projects and tasks quickly and as needed.
- Ability to listen to others and work well as part of a team.
- Knowledge of office procedures and good writing and verbal skills.
