Purchasing & Supply Chain Intern Job Description

Job Description and Qualifications: The Purchasing & Supply Chain Intern will support the Supply Chain team with purchasing activities, supplier communication, inventory tracking, and procurement-related projects. This role provides hands-on experience in sourcing materials, processing purchase orders, maintaining supplier records, and supporting daily supply chain operations.

Interns will gain practical work experience to augment their education and career preparation. During the work experience, the intern will be exposed to the interpersonal relationships a professional workplace requires, both with co-workers and supervisors, which are essential in obtaining a successful, satisfying career. Opportunities for work after graduation may be available.

Essential Job Functions:

- Assist with creating and tracking purchase orders.
- Support supplier communications and follow-ups.
- Maintain purchasing records and procurement documentation.
- Assist with inventory monitoring, tracking, and reporting.
- Support supply chain projects and data analysis.
- Collaborate with operations, warehouse, and production teams.
- Support logistics coordination and material planning activities.

Learning Objectives and Benefits:

- Gain real-world experience in purchasing, procurement, and supply chain operations.
- Gain experience working with suppliers and cross-functional business teams.
- Develop professional communication, analytical, and organizational skills.
- Build relationships within the company for potential long-term employment opportunities.
- Understand BlueWind's manufacturing and supply chain culture.

Qualifications:

- Current full-time UWF student pursuing a degree in Supply Chain Management, Logistics, Business Administration, Operations Management, Industrial Engineering, or a related field.
- Strong attention to detail and organizational skills.
- Ability to work independently and as part of a team.
- Proficiency in Microsoft Excel, Word, and PowerPoint.
- Experience with data analysis or ERP systems is desirable but not required.
