BlueWind Product Engineer Intern Job Description

Who We Are: BlueWind Technology was founded in August 2019 to supply a large demand of nacelle covers for GE and now has 100-250 employees in Pensacola. BlueWind is committed to bring the highest composites manufacturing technology in the world to the American market.

Job Description and Qualifications: An entry-level engineer within BlueWind will assist employees with design, analysis, testing, attend and participate in project meetings, and conduct research.

Interns will gain practical work experience to augment their education and career preparation. During the work experience, the Intern will be exposed to the interpersonal relationships a job requires, both with co-workers and supervisors, that are essential in obtaining a successful, satisfying career. Opportunities for work after graduation available.

Working as an Intern, you will be primarily responsible for:

Essential Job Functions:

- Assist in design, analysis, and testing in projects.
- Elaborate testing reports.
- Participate in project meetings and contribute to problem-solving discussions.
- Conduct research and gather data to support engineering projects.
- Maintain accurate documentation of design processes and project progress.
- Collaborate in the daily tasks for product engineering, such support Production and other correlated areas.

Learning Objectives and Benefits:

- Gain real-life work experience using computer-aided design software.
- Gain experience in entry-level mechanical engineering.
- Gain positive relationships with the company for potential long-term employment.
- Understand BlueWind's work culture.

Qualifications:

- Currently pursuing a Bachelor's or Master's degree in *Mechanical Engineering* or a related field.
- CAD software (e.g., SolidWorks, AutoCAD) is desirable.
- Excellent problem-solving skills and attention to detail.
- Ability to work effectively in a team environment.
- Strong communication skills, both written and verbal.
- Microsoft Excel, Word and PowerPoint
