

*Paid internship NOW with the potential to be hired full-time after graduation!*

# Apply Now Paid Environmental Health and Safety (EHS) Data Analytics, Tools and Systems Coordinator

GE Vernova is Hiring

GE VERNOVA

Environmental Health and Safety (EHS) Data Analytics, Tools and Systems Coordinator

Fall 2024: 20+ hours/week  
Spring 2025: 20+ hours/week

Apply today using the QR Code for our internships. They are designed to provide hands-on, project-based experience in various areas of our business.

The EHS Data Analytics, Tools and Systems Coordinator is responsible for assisting in efforts to maintain compliance, reduce risk and deliver EHS excellence through consistent data management using standardized processes, and tools across International.

Finally, this role will collaborate across the EHS team as we work to build one successful EHS team, providing necessary support to the EHS Leader as required.

The UWF Talent Catalyst program combines work experience, classes, mentoring, and essential professional soft skills development.

## Environmental Health and Safety (EHS) Internship Job Description

### **Essential Responsibilities**

- Support digital tools and systems utilization across teams, through development of standard work.
- Support continuous improvement and operational effectiveness through dashboard development and maintenance.
- Collaborate across the EHS organization to review and understand findings and Key Performance Indicators for statistical trend analysis to help identify and address systemic issues.

### **Qualifications/Requirements**

- Proficient knowledge using Microsoft office packages and other digital platforms, such as Smartsheet.
- Fluent English with strong communication skills (verbal and written)
- Ability to work in a matrix environment, influence and motivate diverse teams to achieve a unified goal.

### **Desired Characteristics**

- Able to coach and support key influencers to drive EHS compliance and the reduction of risk through team engagement and help develop an organizational culture that prioritizes EHS.
- Knowledge of EHS management systems, GE EHS programs and digital applications.
- Self-starter with demonstrated ability to manage multiple issues with competing priorities.
